

**“Sparrow 3,5”** is an enlarged version of the sailboat Sparrow 3. The hull of the boat has a length increased by 50 cm and a width increased by 10 cm. Due to the increased size of the boat has a more spacious cockpit. Sailing boat Sparrow 3.5 has a cabin designed for two people.

The boat has a compact size and light weight, so there will never be problems with storage, transportation and launching.

The boat has a simple design and is built of plywood with the technology of "stich and glue". Sparrow 3,5 has two keels, so the draft of the boat is minimal. Due to the absence of a centerboard in the design of the boat, the cabin has maximum space.

Technical data:

Length.....3,5 m  
 Waterline length.....3,0 m

Beam.....1,6 m  
 Draft (by keels).....0,32 m  
 Mast height from water level.....5,8 m

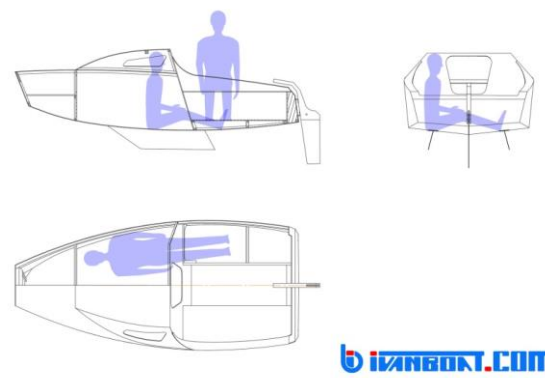

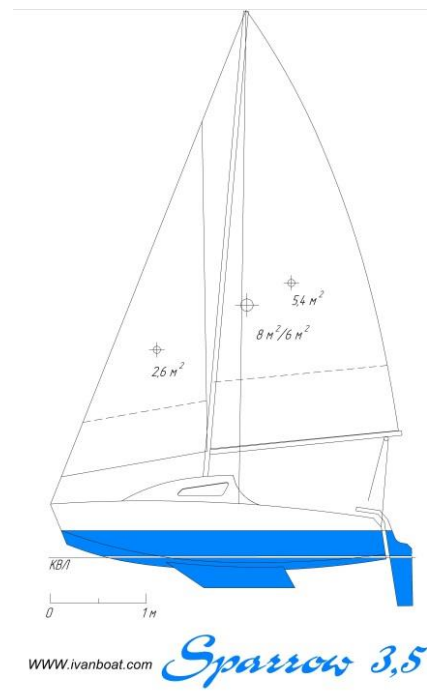

Sail area:

Mainsail.....5,4 m<sup>2</sup>  
 Staysail.....2,6 m<sup>2</sup>  
 height in the cabin.....0,95 m  
 Weight.....140 kg
